PROSPECTUS OF THE "NATIONAL MON-UMENT.

A weekly journal to be published in Washington, under the sanction of the Washington National Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

Monument, Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientific articles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Mouument will be published for the express and the sole purpose of aiding in the erection of the noble column now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of Washington would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining fands will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is carnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's graticude.

The Board of Managers recommend Mr. Pickett, formerity Fourth Auditor of the Teasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument tournal, as one well qualified to perform the duties of editor, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their fellow-citizens that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the resolution of t

As all editors and publishers, on account of the object or which the Monument newspaper will be established, anst wish it to succeed, it is hoped that they will contibute to its success by publishing this prospectus.

All moneys will be remitted, and all letters and moneys differessed prepaid, to the general agent of the Monument Society, Hon. Elisha Whittlesey, Washington.

OFFICERS.—Millard Filimore, ex-aficia President; Arch. Henderson, First Vice President: Walter Lenox, (Mayor of Washington.) Second Vice President; Thos. Carbery, Third Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

BOARD OF MANAUERS.—Winfield Scott, N. Towson, Thos. Mauros, W. A. Bradley, P. R. Femilall. Walter Jones, Thomas Blagdon, Peter Force, W. W. Seaton, M. F. Maury, F. Hartley Crawford, Benj. Ogle Tayloe, Elisha Whittlesey.

Terms.—The Monument will be printed on a double-

f. Hartley Crawford, Senj. Ogle Tayloe, Elisha Whittlesey. Terms.—The Monument will be printed on a double-oyal sheet—the paper and type being of the best quality— and in quarto form, containing sixteen large pages, that t may be more easily preserved. The price will be two collars per annum, payable on the receipt of the second number. The nature of the saterprise not admitting of my credit, none can be given. Societies and clubs will be furnished with the MONUMENT of the same colleges of the MONUMENT are sequested to forward their names to the GONUMENT are sequested to forward their names to the GONUMENT are sequested to forward their names to the GONUMENT are

THROUGH TO PITTSBURG IN 33 HOURS. An express train of cars will leave Calvert Station daily, with the U. S. Mail from Washington and Baltimore, at \$1\frac{1}{2}\ a. m., connecting with the Fast Line at Middletown at 1 p. m., arriving at Harrisburg at 1 \frac{1}{2}\ p. m., to dinner. The train leaves Harrisburg for the West at 2 p., m. arriving at Hollidaysburg at 8 p. m. At this point, passencers have the option of taking either the Cars to Johnstown, thence by Packet Boats, or Stages direct from Hollidaysburg to Pittsburg.

Tickets will be sold to the following points, by this train, to wit: York, Wrightsville, Columbia, Marietta, Middletown, Harrisburg, Newport, Millerstown, Perrysville, Lewistown, McVeystown, Huntingdon, Hollidaysburg, and Pittsburg.

This train also connects with the Cumberland Valley Railroad, which passes through Carlisle, Shippensburg, Chambersburg, and other points on this road.

For the accummodation of passengers from Washington for any of the above points, the Baggage Master of the Company will be at the Depot of the Baltimore and Ohio Railroad Company on the arrival of the Morning Cars, at 8 a. m., to receive the Baggage, which will be carried free of charge to Calvert Station.

Austin's Magic Freezer,
Through in siz minutes. For the preparation of
Ice Creams, Water Ices, &c.—Patented September 19, 1848.

tember 19, 1848.

THE distinguising merits of this Apparatus are—

Ist. The astonishing rapidity of the process, surpassing belief—bence the name.

20. The Cream during the progress of freezing Secomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the loc Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magio Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

H. P. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

B. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848,

"This is to certify, that during the summer of 1848, I need one of Austin's Patent ice Cream Freezers of the largest size, (10 gallons,) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

Baltimore, April 6, 1851."

Manufactured and for sale by the patentee.

No. 61 N. Eutaw street, near Saratoga.

Also, by CORTLAN & CO., No. 203 Faltimore street.

DELAWARE COLLEGE

its Proudty of Instruction of this its present organization, consists med Professorships, to wit:

phy,
A Professorship of Rheteric and Belies Letter
A Professorship of Chemistry and Natural Hi
A Professorship of Civil Engineering,
A Professorship of Modern Languages and D
The Collegiate year is divided into two session
of twenty-one weeks each. The first session of
on the fourth Wednesday of October; and the
the fourth Wednesday of April. Each is follow
excetion of five weeks. COURSE OF INSTRUCTION.

COURSE OF INSTRUCTION.

FRESHMAN CLASS.—I. Livy, begun; Xenophon's Ansbasis; Algebra, begun; History, begun.

II. Livy, finished; Homer's Odyssey, begun; Algebra, finished; Geometry, begun; History, continued.

III. Horace, begun; Homer's Odyssey; finished; Geometry, five books; History, finished.

JUNIOS CLASS.—I. Tacitus, begun; The Prometheus of Eschylus and Electra of Sophocles: Analytical Geometry, finished; Calculus; Natural Theology; Evidences of Christianity.

tianity.

II. Logic; Mental Philosophy; The Alcestus of Euri-pides; Tacitus, finished; Natural Philosophy; Mechanics, begun.

III. Moral Philosophy; Plato's Gorgias; The Captivo of Plautus; Mechanics, Hydrostatics, Pneumatics, an Metagropoy.

of Plautus; Mechanics, Hydrostatics, Pneumatics, and Meteorology.

Sopionoga Class.—I. Horace, finished; Xenophon's Memorabilia; Geometry, finished; Rhetoric, begun.

II. Cicero de Amicitia and de Senectute; Herodotus, begun; Plane Trigonometry; Spherical Trigonometry; Rhetoric, continued.

III. Cicero de Officiis; Herodotus, finished; Surveying; Analytical Geometry, begun; Rhetoric, finished.

SENIOR CLASS.—I. Political Philosophy; The Andria of Terrence; The Clouds of Aristophanes; Acoustics, Optics, Electricity, Magnetism; Butler's Analogy; Cicero's Tusculan Questions; Demosthenes de Corona; Voltaic Electricity of Galvanism; Electro-Magnetism, Magneto-Electricity, Electro-Dynamics; Astronomy, begun.

III. The Constitution of the United States; Astronomy, finished; The Science of Heat; Thermo-Electricity; Chemistry and Geology.

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus.

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the different brunches of Natural Philosophy. The sum of three thousand dollars has recently been expended, partly in this country and partly in London and Paris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

EYAMINATIONS.

EXAMINATIONS.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the close of the year, in all the studies of the year, in the presence of a Committee of the Trustees; and their attainments are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION. RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Monday morning is always in the Greek Testament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION.

In order to admission to gursue the entire course, a

anch rooms as may be assigned them by the Faculty.

ADMISSION.

In order to admission to pursue the entire course, a student must be at least fourteen years of age; must give satisfactory evidence of good moral character; and must sustain an examination in the following studies, viz:

Arithmetic. Elements of Algebra, Latin and Greek Grammar, Jacob's or Felton's Greek Reader, and the first two books of Xenophon's Anabasis, Jacob's or Doering's Latin Reader, Sallust or Gessar, Cicero's Select Orations, and Virgil, or what shall be deemed equivalent.

EXPENSES.

ENTRANCE FEE.—If the student enter as Freshman, five dollars; if as Sophomore, ten dollars; if as Junior, fifteen dollars; and if as Senior, twenty dollars.

1st Session. 2d Session.

Tuition \$21.00 \$21.00

Room rent 400 4.00

Fuel is afforded to the students at cost. A sum equal to the probable cost is advanced by each student; if more is consumed it is charged to him: if less, the balance is refunded.

Board is furnished with the families of the Professors

to the probable cost is advanced by its consumed it is charged to him; if less, the balance is refunded.

Board is furnished with the families of the Professors at two dollars per week.

Washing, at the usual rates.

All dues are payable in advance. The tuition is remitted, on application, to all students designed for the Ministry.

The tuition fee for Modern Languages will be eight dollars per session, to be paid to the Instructor in advance.

dollars per session, to be paid to the Instructor in advance.

For students who do not design to presecute the whole Course required for a degree, a more limited range of studies is furnished, adapted to the sphere and course of life of each individual, so far as such can be reasonably antic-

ipated.

The studies of this Course are arranged under the following departments, to wit:

1st. A MATHEMATICAL DEPARTMENT—In which, beginning with Arithmetic and Algebra, the student will be carried, scriating, through all the higher branches of the Mathematics, ending in their application to Natural Philosophy, Astronomy, &c.

2d. AN ENGLER DEPARTMENT—Comprising instruction in Orthography, Reading, Elecution, Grammar, Writing, Geography, History, Composition, Rhetoric, Logic, Intellectual Philosophy, Moral Philosophy, Political Grammar, Story on the Constitution, Philosophy, Ornichology, Natural Theology, Elements of Criticism, and Evidences of Christianity.

aristianity.
2d. A Mercantile Department—In which will be im-

nefuding—

1. Pannmanship—By an original and popular system

1. Pannmanship—By are original and popular system

business man.

2. Arithmetic—Comprising numerous abbreviated methods of computing Interest. Discount, Equation of Payments, &c., and other mercantile calculations founded on per centage; together with all such operations as are requisite for a thorough knowledge of the business of the

quisite for a thorough knowledge of the business of the counting-room.

3. Book-keeping—Single and Double Entry, by the most approved methods. A complete course of instruction in this branch will be furnished, designed to fit the student to take charge of any set of account books.

4th. An Aduculturan Department—Comprising a selection from the English and Mathematical courses; and, also, Surveying, Botany, Mineralogy, Geology, Chemistry, and Agricultural Chemistry; the last two illustrated by experimental lectures.

syperimental lectures.

5th A Civil Engineer Department—In which are taught Arithmetic, mental and written.) Algebra, (mental and written.) Geometry, Trigonomotry, Surveying, with the use of instruments in the field, Practical Engineering, Architecture, Perspective, Draughting, and To-

neering, Architecture, Perspective, Prangular, prography.

8th. A Tracher's Department.—The course of study will consist of a judicious selection of subjects from the other departments, including all the branches pursued in our common schools. Practical Lectures will also be given on School Teaching, both as a science and as an art. Pupils will not only thus receive the follest instruction relative to the best and most popular methods of teaching, but they will also have opportunities of exemplifying them, by hearing recitations in the lower departments of the Institution.

the Institution.

7th. A DEPARTMENT OF MODERN LANGUAGES—In which students who wish to take a thorough course can have an opportunity of doing so; while others, whose object may be to acquire sufficient knowledge to translate with facility, and to pronounce with tolerable correctness, in as abort a time as possible, are also provided for.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustess have taken measures to piace it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course sulgiceod to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-coops and dormitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for prevent study and comfortable accommodation of students. fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College Library without additional charge. Admission also may be had to the Lectures, and such other privileges of the College as can be profitably enjoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &c., with tuition in the English, Latin, and Greek, is seventy dollars for

Rev. MATTHEW MEIGE, A. M., President of Belaware College.

WILMINGTON MOARDING SCHOOL Tapscott's General Emigration and Foreign Ex-

WILMINGTON BY AILPING SCHOOL FOR BOYS.—This institution is situated in our of the healthiest parts of the city of Winnington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the octablishment of the School, about twenty-sight years, very low cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted with here.

The course of instruction includes, beside the ordinary lengths branches, Natural Philosophy, Chedistry, Physiology, History, Rhatoric, the various branches of Mathematics, and the Latin, tireck, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing audiable spaparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulatica.

The school year commenced on the third Second-one (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

\*\*MORE HOME EVIDENCE\*\*

MORE HOME EVIDENCE.

THE TESTIMONY OF ONE OF OUR LAWYERS.—

The Testimony of one of our lawyers.—

In Jas. L. Hamilton—dead in: Although the number and respectability of the testimonials of which you are aiready in possession, as to the afficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, for my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have represented in the character, manifested by an almost total destruction of the digestive functions, great deblity, nervousness, emaciation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely releved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved effections, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all d Mr. JAS. L. HAMILTON-DEAR SIE: Although t

VALUABLE LAW BOOKS. W B invite the attention of the Profession, and other desiring Law Books, to our very extensive stock which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports,

English Common Law Reports,

58 Folumes, with a complete Index to the first 47 Volumes.

Since volume 30 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, in
stead of, as formerly, two English in one American volume
Price—For the first 45 vols., \$3 50 per vol.

For the succeeding, 2 50 "
The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the Eng lish Common Law Reports.

Hon. George Sharswood and George W. Biddle

By Hon. George Shasswood and George W. Biddle, Esqrs. 1 vol. 8vo.—\$6 00.
With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersode the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

Equity.

To be reprinted in full, in best style, with American Notes, by J. I. CLARK HARK and H. B. WALLACE, Esqrs, at \$2 50 per vol., bound.
Including McClelland and Younge, Younge and Jervis. Crompton and Jervis, Crompton and Messon, Crompton, Messou and Roscoe, Messon and Younge and Collyer—in Equity.

Equity.

Meson and Welshy, in 19 vols., Welshy, Hurlstone and Gordon, vol. 1, published and ready for delivery. \*\* We take pleasure in referring to the ac letters, explanatory of the character of these their value to the Profession in this country:

Mesers. T. & J. W. Johnson:

Gentlemen—in reply to your letter, 1 can with greating sincerity say, that I entertain a very high ordinary recent Exchequer Reports. In my Reports, in learning excelled by any cotemporaneous Reports, in learning ability, or general utility and interest. The cases decide are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deep of more importance or value for a Professional Library, JOSEPH SYORY.

Gamerical Control of the 24th has been received in which you ask my opinion as to the value of the ken lish Exchequer Reports, from Price downwards to the time, to an American Lawyer, and as to the expediency reprinting them in this country. Of the high value these Reports, both on the Pleas and Equity sides of time, to an american the least doubt—the decisions of the Court for the last fifteen or twenty years, both at Equi and in Common Law, being entitled to equal respect without these in England. I should think an America Lawyer's Library essentially incomplete without them. brary essentially incomplete without them I am, gentlemen, very respectfully yours, SIMON GREENLEAF

Mesers, T. & J. W. Johnson.

Law Library.

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers. The cheapest Law Periodical in the United States. It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nie Prius, Archbold's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts. The high reputation which the "Law labrary" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valumble contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character. Pourth Series-Forty Volumes.

Leading Cases in Law and Equity.

Leading Cases in Law and Equity.

In Three Series—With American Notes.

1. White and Tudor's Leading Cases in Equity, 1 vol. 8vo. 44 50; with copious and elaborate American Notes, by Mears. Bare & Wallace.

FURNISHING MAIL LOCKS AND KEYS. POST OFFICE DEPARTMENT, March 14, 1851. ]

T being desirable to substitute locks and keys of some

The being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with pro-seals to furnish the same, will be received and considered at the Post Office Department until the first day of July ext. The different locks will be submitted to a commi-ten for examination and report. Upon this report, con-racts will, as soon as practicable, be entered into for fur-nishing such locks and keys for four years, with the right to the part of the Postmaster General, for the time being the part of the Postmaster General, for the ti o extend and continue the contract in force for an add found term of four years, by giving to the contractor ritten notice to that effect, not more than nine nor less has six months before the termination of the first ter

tional term of four years, by giving to the contractor a critten notice to that effect, not more than nine nor less that six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest rice, no kind of lock is prescribed as a standard, the Deartment relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may be the following quaities, viz: durability, uniformity, lightness, and strength. For the mail service should possess the following quaities, viz: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the nail locks and keys now in use, about thirty thousands to lock and twenty thousand keysadapted thereto will be equired to be furnished by the contractor within seven months after the contract shall have been entered into interward the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to mail an assignment of his patent for the exclusive use and benefit of the Department. if the Post office Department. The kind of lock adopted must be patented, and the patentee will be required to a entering into contract, to mail an assignment of his patent for the exclusive use and benefit of the Department. If the Postmaster General shall have the right for his patent for the exclusive use and benefit of the Department and the patent of patents and the patent of patents.

HUNT'S MERCHANTS! MAGAZINE

Established, July, 1880, BY PRESMAN HUNT, EDITOR AND PROPRIETOR.

The following are a few of the many commenters received by the editor of the Merchants' from distinguished statesmen:

The bullowing are a lew of the Smany commendatory letters received by the editor of the Merchants' Magacine from distinguished statesmen:

\*\*Letter from the Hon. Henry Clay.\*\*

Ashland, 20th July, 1849.

Dear Sir: I wish to express to you the gradification I derived on receiving the July number of the Merchants' Magazine and Commercial Leview, from viewing your portrait in the beginning, and from reading your accress to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally decirows to paress all the knowledge of them, of their appearance, of the features of their conneance, and of the character and habits of their mind, which we can acquire. You have 1 ared your numerous readers (at least you have me, it 1 may not speak for them) under those obligations: and the number of your valuable work mow before me. In some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Seview, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the dislemant, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and ready, I am truly your friend and obedient servant.

Freeman Hunt, esq.

Extract of a letter from Hon. Millary Fillmore.

'I have read it (Merchants' Magazine) with a good deal of attention, and have no besitation in saying that I think it one of the merchant is seems quite indispensable, and to the statesman and man of general intornation almost equally desirable. It is a grand repository of useful facts and hinformation, which we h

Letter from Hon. Wm. H. Seward. Letter from Hon. Wm. H. Senard.

My Dear Sir: Have the goodness to place my name on your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

ment.

I am, with great respect, your humble servant,
Freeman Hunt, esq. WILLIAM H. SEWAFD.

BALTIMORE PIANO FORTE NUFACTORY. ELASTIC\* UNIVERSAL TOUCH.

WISE & BROTHER, Manufacturers of Bondoir, Grand, and Synare Planes, request those who would be assured of a first elesse Plane, one that ladies can perform on with the greatest possible advantage—one that the tower can be hasanily adjusted to the exact strength of the Inversional movement of music, one that will stand in concretion, one that the tone will not become shrill and crating, that is chaste of style and cheanily made up of straight and regular curve lines, that will last an rejectory, and liberal patronage of clitzens and other of the first order of artistic taste and science, convesied at once the most critical, have been fully anticipated. Their recently finished Grand Plane, minutely reviewed by the most accomplished civil engineers and master artists, has been denominated truly a Grand Plane; also, that their late Bondoir, for style, power, and compass of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

No. 31 Hanover street, Baltimore.

\* Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree

\* Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree hard, or soft touch, so that ten thousand or more per-formers, all different, may each find the touch they pre-fer.

THIS NEW AND SPLENDID ESTABLISHMENT for

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various discusses with which the human system is afflicted, is situated about three miles from the city of Builalo, in a rural upot, and so accessible from all points as to be reached without inconvenience or deiay.

A line of omnibuses runs from the steamboat landings in Builalo to the springs every ten minutes.

The house and grounds are near the extensive and sanutiful green-houses and curseries of the Messrs. He dges a Bryants; and the scenery in all directions is 11 surpassed, as regards either variety or beauty; cml rai ing points of view, from which may be taken in at a pance the broad expanse of take arise, the Nisgara flowing majestically towards the Fails, extender forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and ceaseless sutterprise.

The water, taken immediately from the ceichrated Cold Spring," is unsurpassed as regards coldners and purity, by any in the United States. The house, recently exected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the flatures and conveniences for incontent and benithful gymnastic exercises.

of its attractions, are the fixtures and conveniences necent and bealthful gymnastic exercises. MEDICAL DEPARTMENT.

The institution is under the general supervision of S. N. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Goo. W. Lavis, M. D., formerly of Danaville, N. Y., the resident physician, and is permanently associated with the before mentioned centieman as counsel, and associate of the medical tourd of control. And the triends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been sourced, and that female patients can at any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gen-tieman eminently qualified for that position; and unwea-ried pains will be taken to have every thing appertaining to the establishment arranged on a plan, and consucted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the ture of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have unpersitively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restocative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugsing, depleting, and canterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further anneyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confurmed the hopes of the army discoverers and promujenters of the great truthe upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure "will compare favorably with any of the well-conducted stablishments of its armagements. The institution is now open for the reception of patients, and in full operation.

TERMS,

Having lately made numerous additions to their stock of Fancy Types, Borders, Ornaments, &c., their assortment is now unrivalled in the United States; and their improved methods of casting, and of preparing metal, enable them to furnish orders in a manner to insure satisfaction.
